DOG NIGHT

Pearl Musical Instrument Co. presents some attractive pictures of Pearl drum artists action on stages. Mickey McFell of THREE DOG NIGHT, Stix Cooper of CRUSADERS, Hiro Tsunoda of SPACE BAND, Joan Hartman and Keith Inudson of DOUBLE BROTHERS, and many others. Mickey has been "terrific" over his Pearl drum set brought with him from the U.S. and says that Pearl drums are just great. Pearl drums are very popular among many American rock and jazz drum artists. Stix said that many professionals in U.S. are already using Pearl's beautiful drums and the number is increasing day by day. He also said that you just can't miss that power of sound, the touches and sensitive response of Pearl drums.

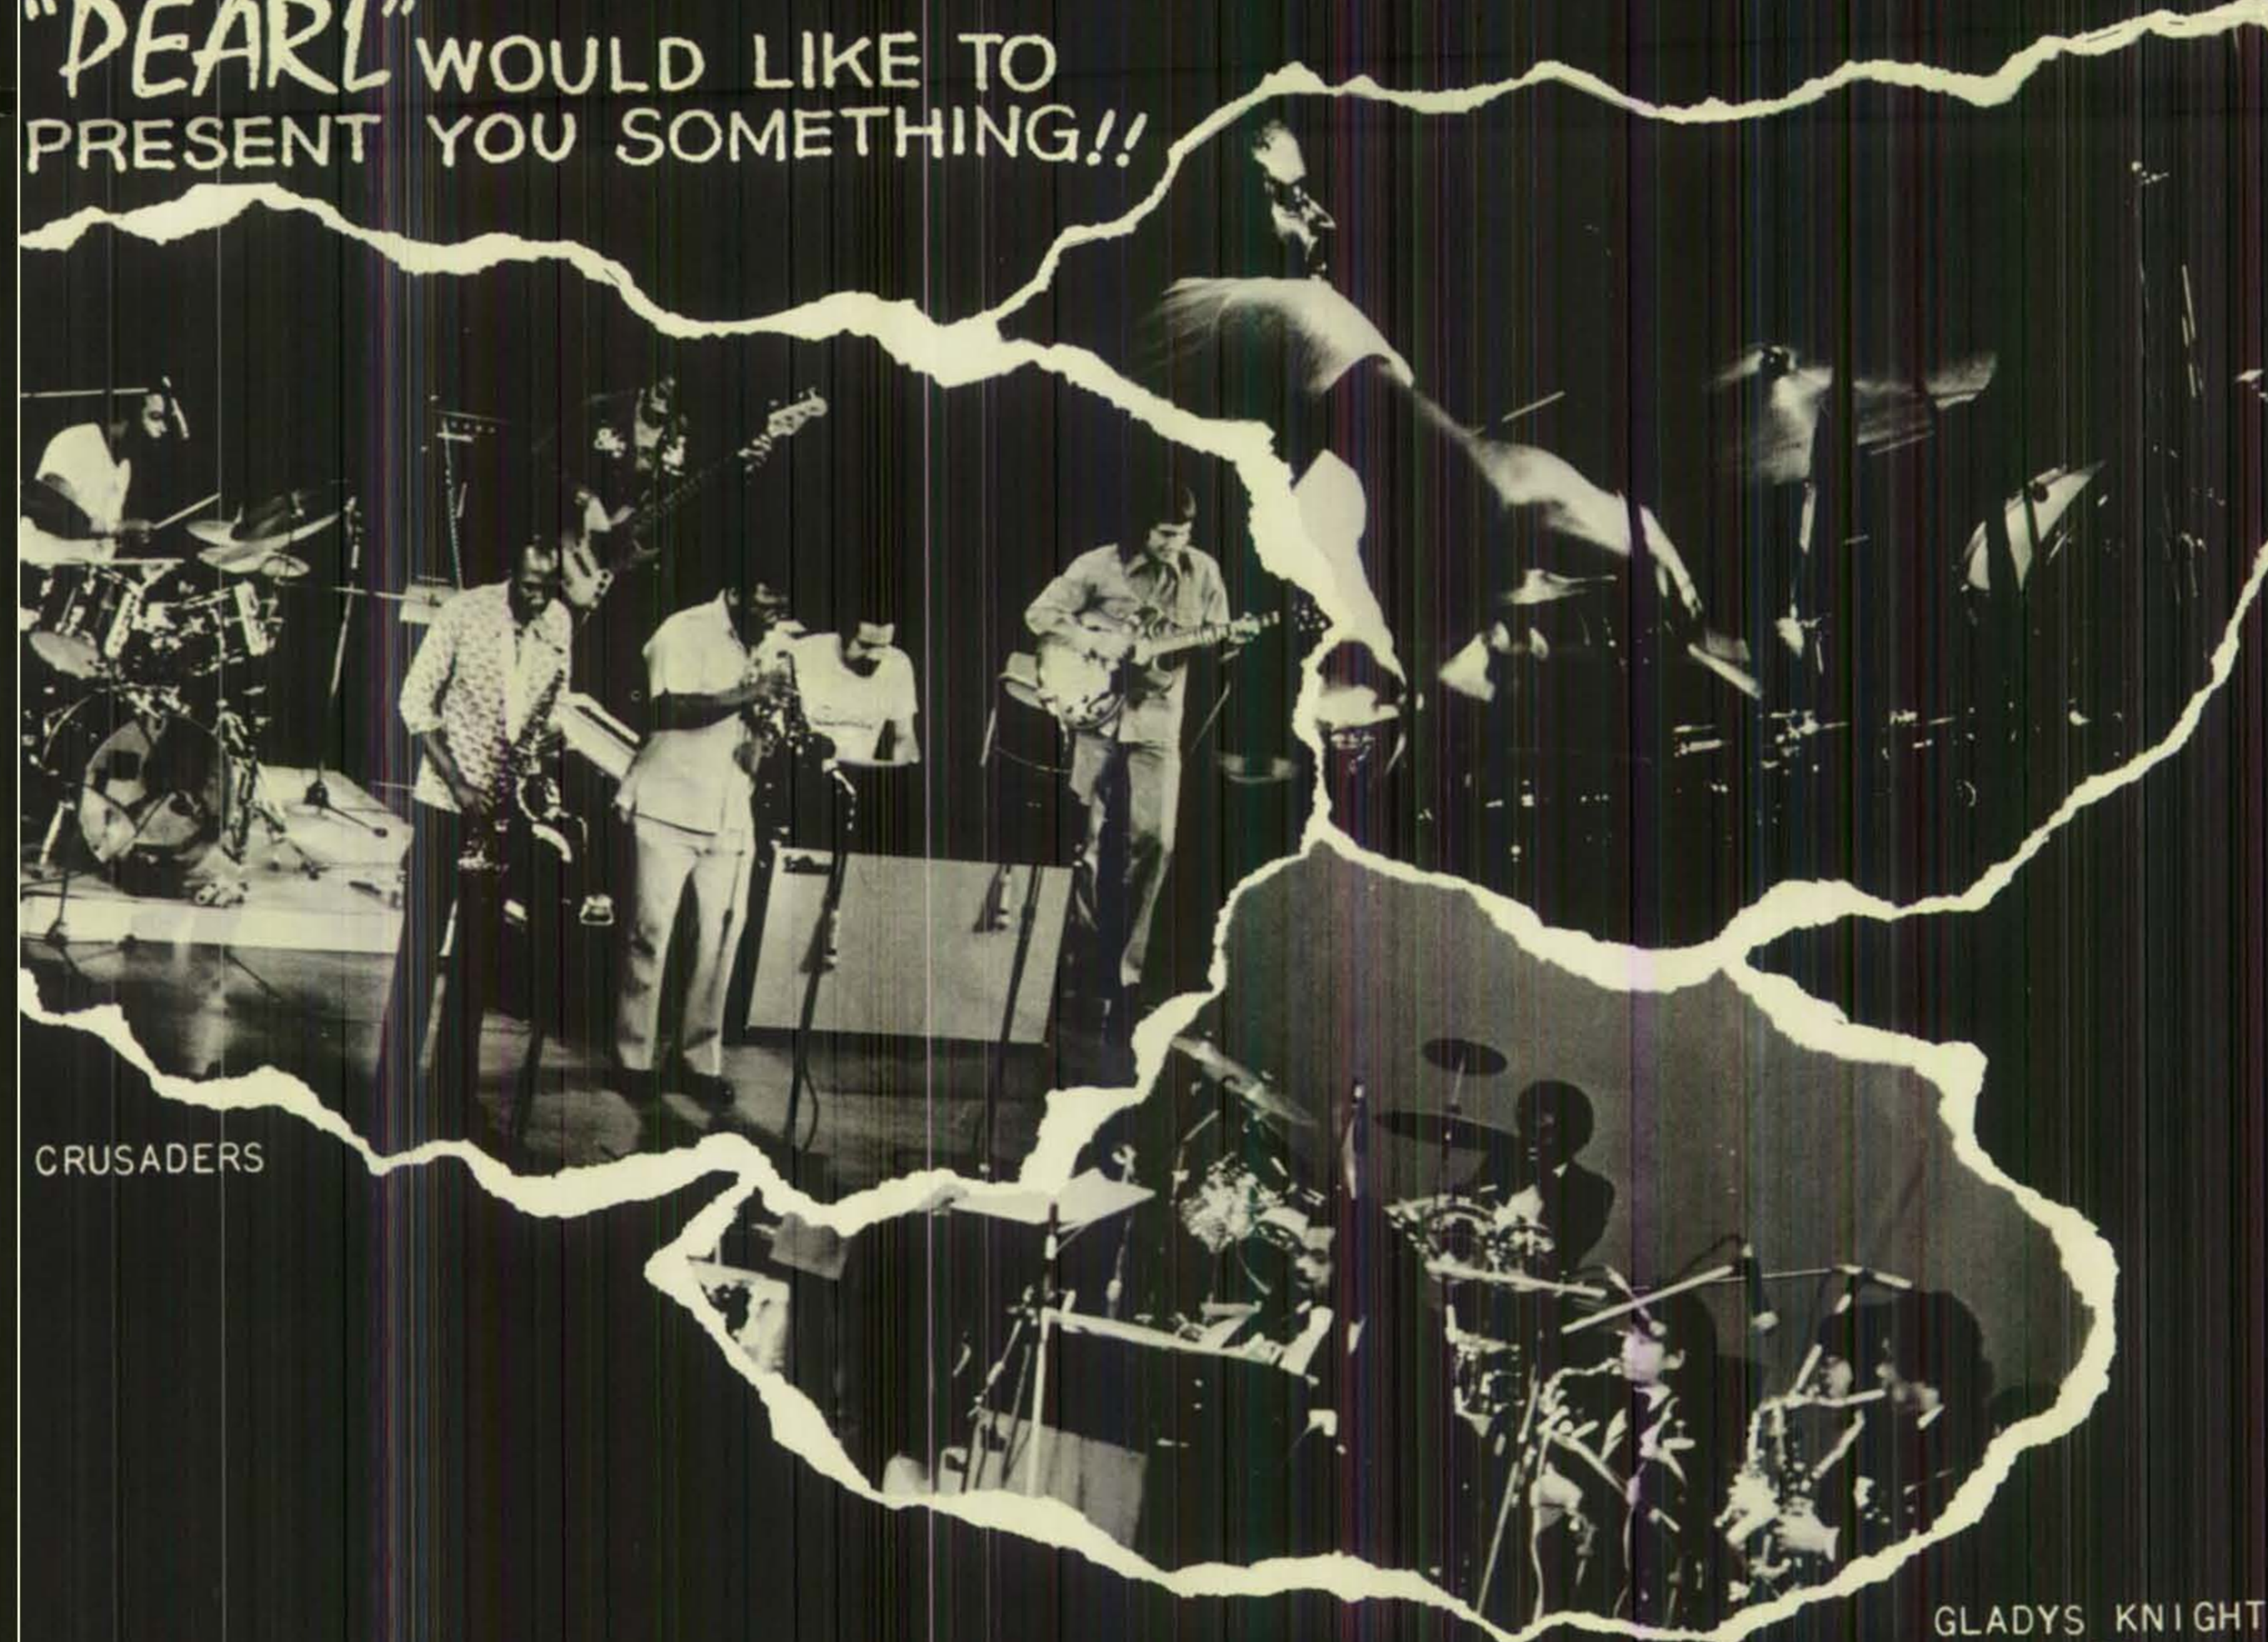

In Japan also Pearl drums are very popular among the famous drum artists. We usually think that he has the exclusive feeling and sound on Pearl drums. Johnny of YELLOW and Yu Okazaki have been playing Pearl drums with the sophisticated passion and attracted many concert audience.

Hot summer is nearly here with you. There are many concert programs on schedule. We are pretty sure that you will have a chance to get something new out of Pearl sounds.
