

Make Your Drumset

HOT & SPICY

Let Afro Percussion cowbells and accessories spice up your drumset. When you are looking for that individual array of flavors from Afro/Cuban to Latin/Salsa, Afro Percussion has the recipe to satisfy your taste. The only way to make your drumset any hotter, is to add jalapeños.

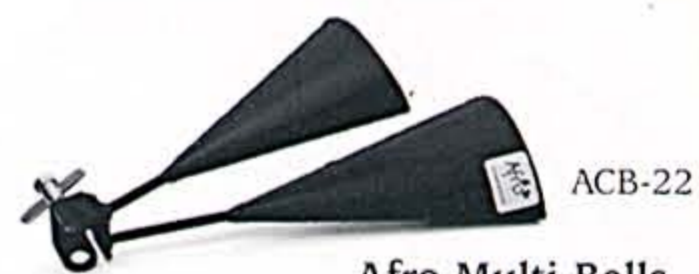

Afro Cowbells

From Chico to Mambo, all Afro cowbells feature fully welded seams for superior strength and sound purity; not spot welds that can fail and buzz.

Each mounted cowbell comes equipped with our exclusive "Dual-Tite" wing screws for optional hand or wrench tightening.

Salida Cowbells

Salida Cowbells have the sound and features of Afro bells but at substantially reduced prices.

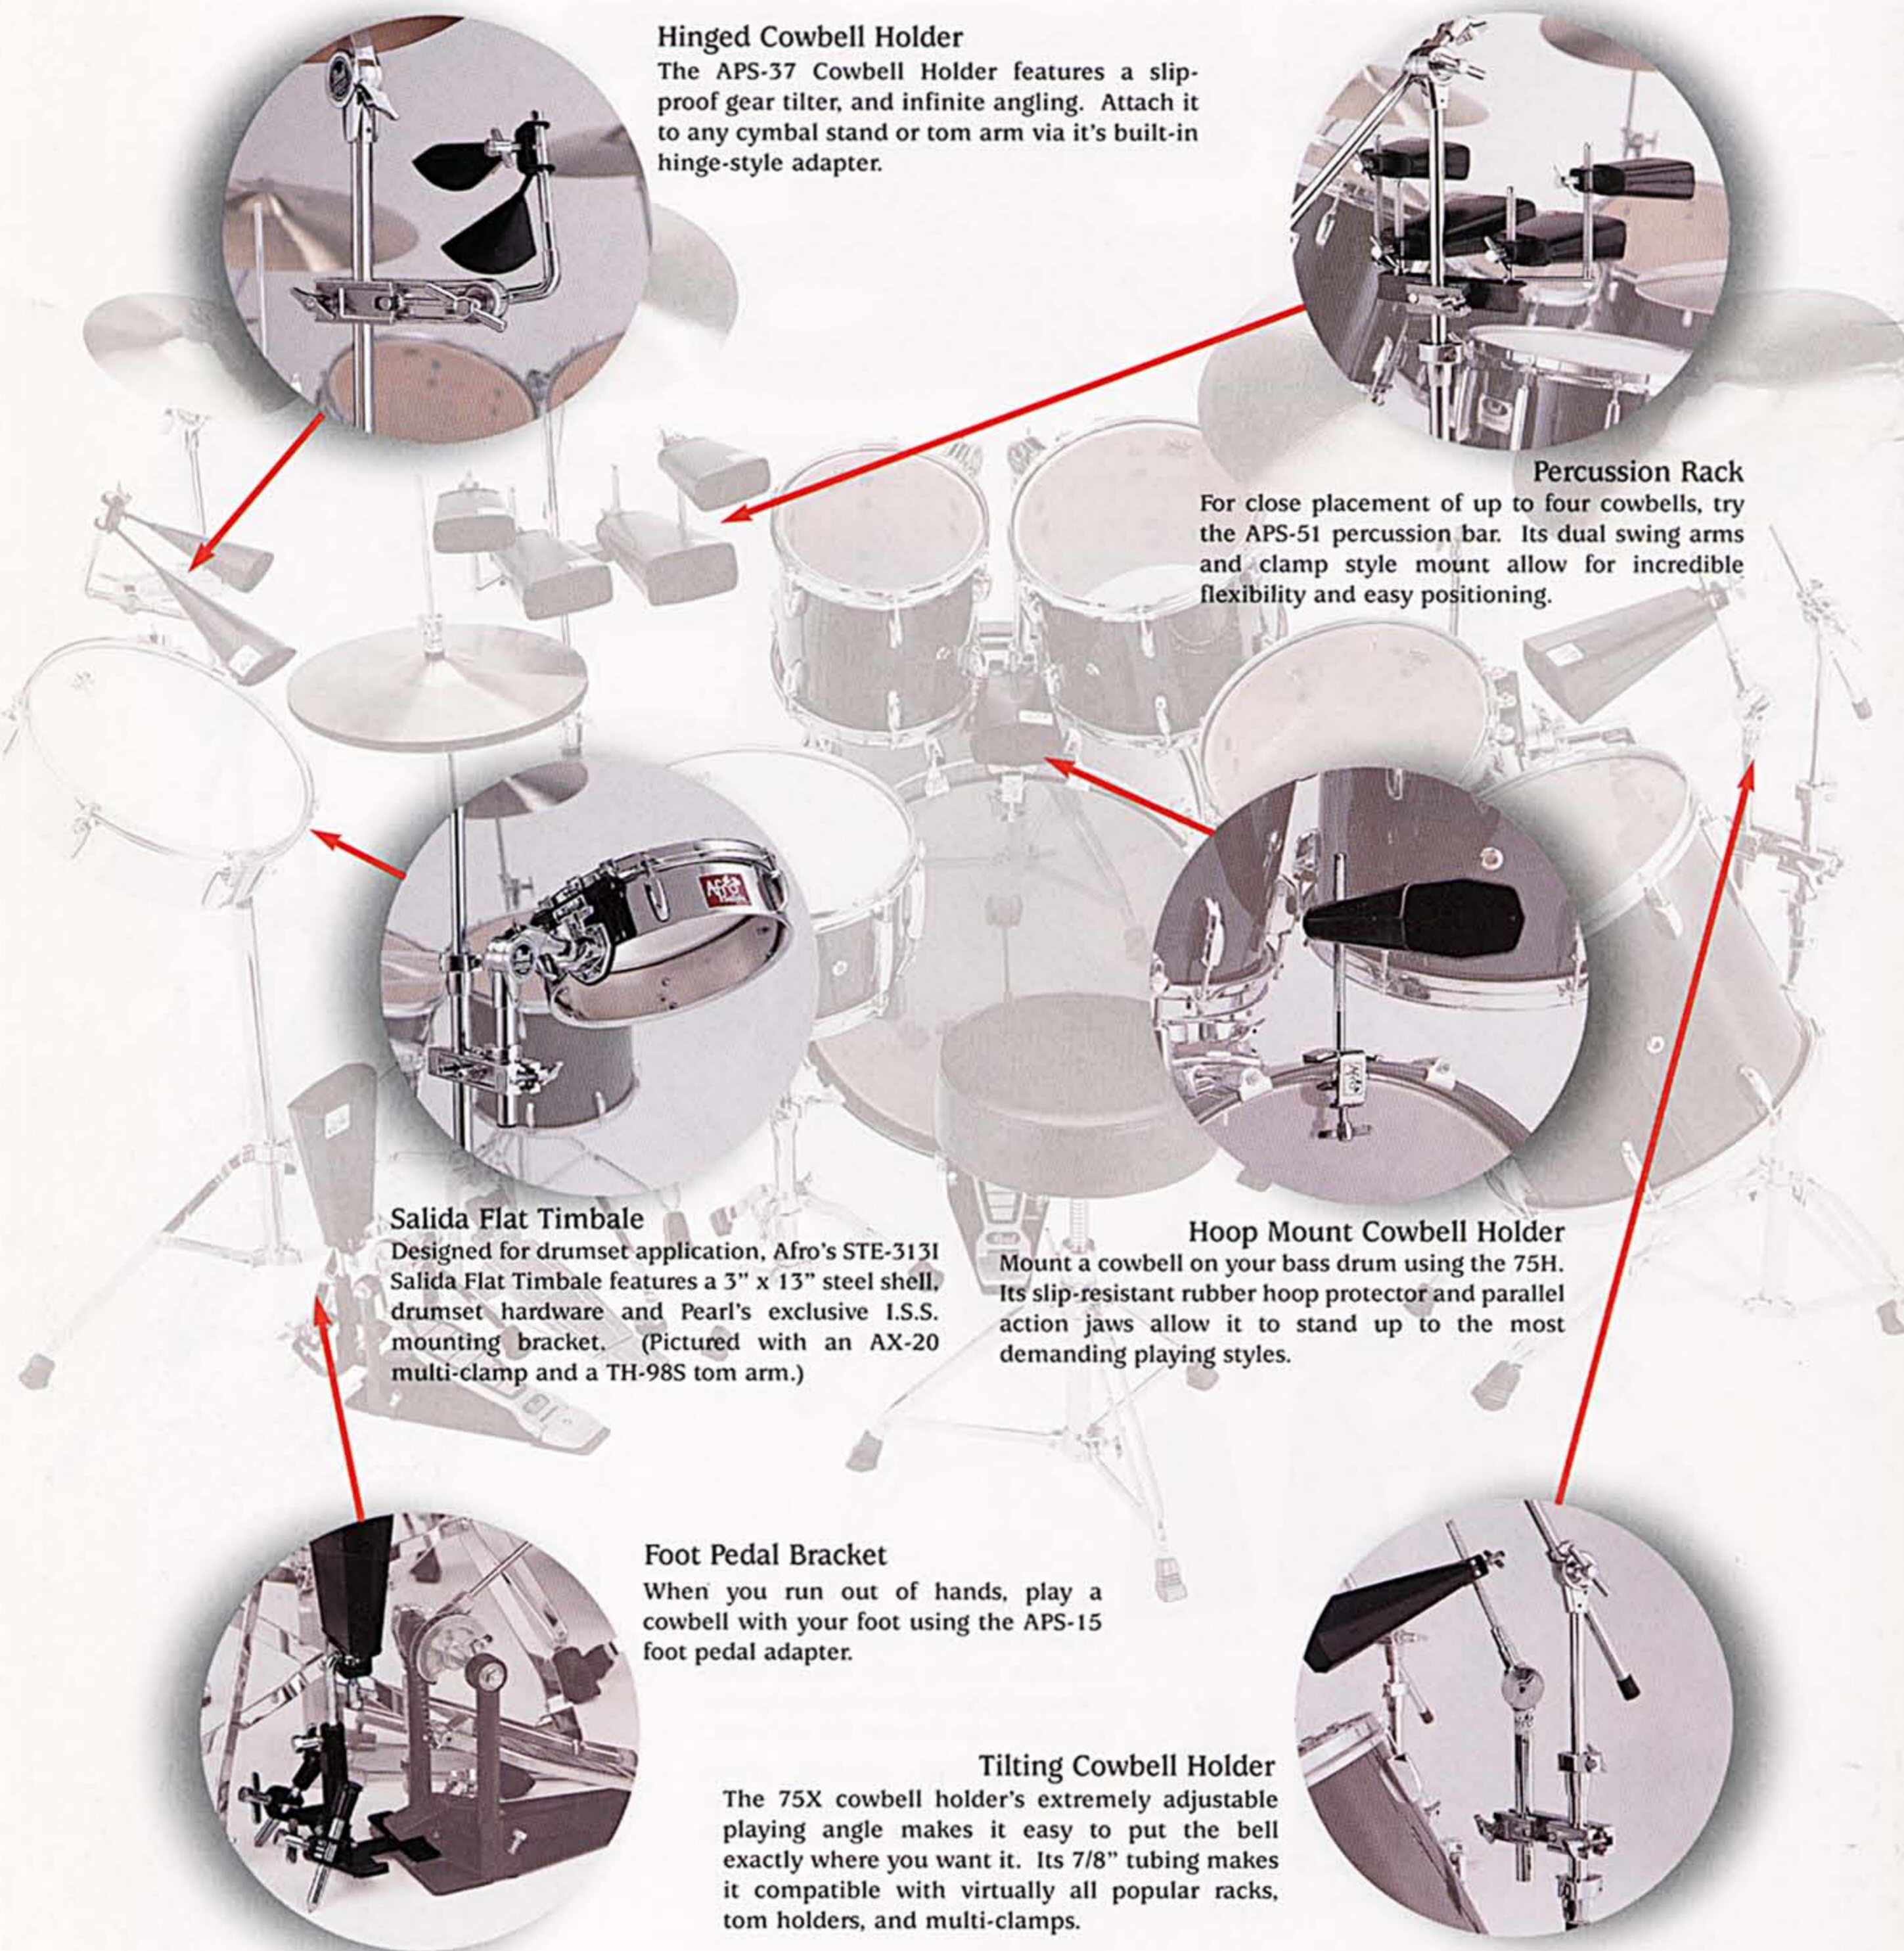

Afro Multi-Bells

One of seven Afro multi-bells, our mounted Agogo eliminates the need for any clumsy mounting attachments.

Hinged Cowbell Holder

The APS-37 Cowbell Holder features a slip-proof gear tilter, and infinite angling. Attach it to any cymbal stand or tom arm via its built-in hinge-style adapter.

Percussion Rack

For close placement of up to four cowbells, try the APS-51 percussion bar. Its dual swing arms and clamp style mount allow for incredible flexibility and easy positioning.

Salida Flat Timbale

Designed for drumset application, Afro's STE-3131 Salida Flat Timbale features a 3" x 13" steel shell, drumset hardware and Pearl's exclusive I.S.S. mounting bracket. (Pictured with an AX-20 multi-clamp and a TH-98S tom arm.)

Hoop Mount Cowbell Holder

Mount a cowbell on your bass drum using the 75H. Its slip-resistant rubber hoop protector and parallel action jaws allow it to stand up to the most demanding playing styles.

Foot Pedal Bracket

When you run out of hands, play a cowbell with your foot using the APS-15 foot pedal adapter.

Tilting Cowbell Holder

The 75X cowbell holder's extremely adjustable playing angle makes it easy to put the bell exactly where you want it. Its 7/8" tubing makes it compatible with virtually all popular racks, tom holders, and multi-clamps.
