

Masters Series Symphonic Custom

Introducing the ultimate expression of excellence in concert quality snare drum design...The all new Masters Series Symphonic Custom from Pearl. Developed exclusively for the concert hall, this outstanding drum features a 6 ply, 100% aged Maple shell finished in beautiful high gloss Antique Sunburst. Classic tube lugs with separate tension clips and single flange hoops give this drum an unmistakable vintage look. But in sharp contrast to its classic visual is the state of the art precision and versatility of the finest snare system on the market today. Our new Multi-Timbre Snare Strainer System features three separate adjustable throw-offs in one unit, controlling light cable, heavy cable and wire snares, in any combination, providing unbelievable control and endless sound options.

No other concert snare drum on the market offers such a perfect combination of classic styling, supreme quality and craftsmanship, unsurpassed tonality, and the unprecedented control and versatility offered by our new Multi-Timbre snare system. If you've been searching for the ultimate snare drum for concert and orchestral use, your search is over. The new Masters Series Symphonic Custom from Pearl...one listen will change your perception of what a great snare sound should be.

Model # SY6514D

Masters Series Symphonic Custom Snare Drum Specifications

- Shell** 100% hand selected aged Maple 6ply, 7.5mm thick formed by Pearl's exclusive Heat Compression Shell Molding System. This state of the art forming process coats each wood ply with a patented adhesive that hardens to the same density of the wood it binds and uses precisely overlapped seams to eliminate dead spots. The coated plies are then formed and cured until dry under extreme heat and continuous internal cylindrical pressure. This process, exclusive to Pearl, produces a shell that responds as if it were one solid, continuous air chamber.
- Finish** #138 Antique Sunburst semi-transparent finish applied using our Masters Series exclusive thirty-one step highly polished urethane finishing technique considered the most complex offered within the industry today.
- Lugs** 10, chrome plated Vintage style tube lugs with die cast tension clips.
- Hoops** 2.3mm chrome plated steel, vintage style single flanged.
- Heads** Remo® Renaissance batter and snare side heads.
- Strainer** Pearl's revolutionary Multi-Timbre Snare Strainer System utilizing three three individually adjustable throw-off levers, tension controls for each of its three different snare wire materials. Each lever controls either six strands of gut, cable, or wire to offer you almost unlimited sound possibilities. Each one of these drums offers you a wide variety in sound quality and tone, simulating an almost endless array of different snare drums depending on the combination of snares chosen. With all three levers in the on position, you have a snare drum with extreme sensitivity but with an almost endless dynamic range.
- Snares** Three separate snares, two sizes of cable and one of wire with 6 strands each.
- Sizes** Two available sizes include 5.5" x 14" (model # SY6514) and 6.5" x 14" (model # SY6514 D).

Our new S-800WL Concert Series Snare Stand has been designed to perfectly complement our new Masters Series Symphonic Custom Snare Drum. It features an extra-wide, sturdy double braced base, fully adjustable sure grip snare basket, newly designed pipe joint with extended nylon sleeve to insure the pipes remain straight under extreme tension, and an extended height adjustability for comfortable concert level playing.
